Chat inbox plugin to your portal or platform

Integrating Chat Inbox Plugin to your portal or platform

This feature is only available for accounts with Agency status and that too on demand

As an agency if you have the requirement to provide chat functionality to your users in your platform, you will need to request for this access

Once you have created a customers account, it will be visible in your Admin Panel

Admin Panel

Company List

Search by Name, Email, or Phone [Add Account](#)

Total Clients 18 **Active Clients** 18 **Inactive Clients** 0 **Total Plans** N/A

ID	COMPANY NAME	USER NAME	EMAIL	PHONE	STATUS	ACTION
					active	Edit Add Toggle Delete
					active	Edit Add Toggle Delete
					active	Edit Add Toggle Delete
					active	Edit Add Toggle Delete
					active	Edit Add Toggle Delete
ARS7412	ARSC Networks	Anu Lijo	anuhealthyfood@gmail.com	9606800781	active	Edit Add Toggle Delete

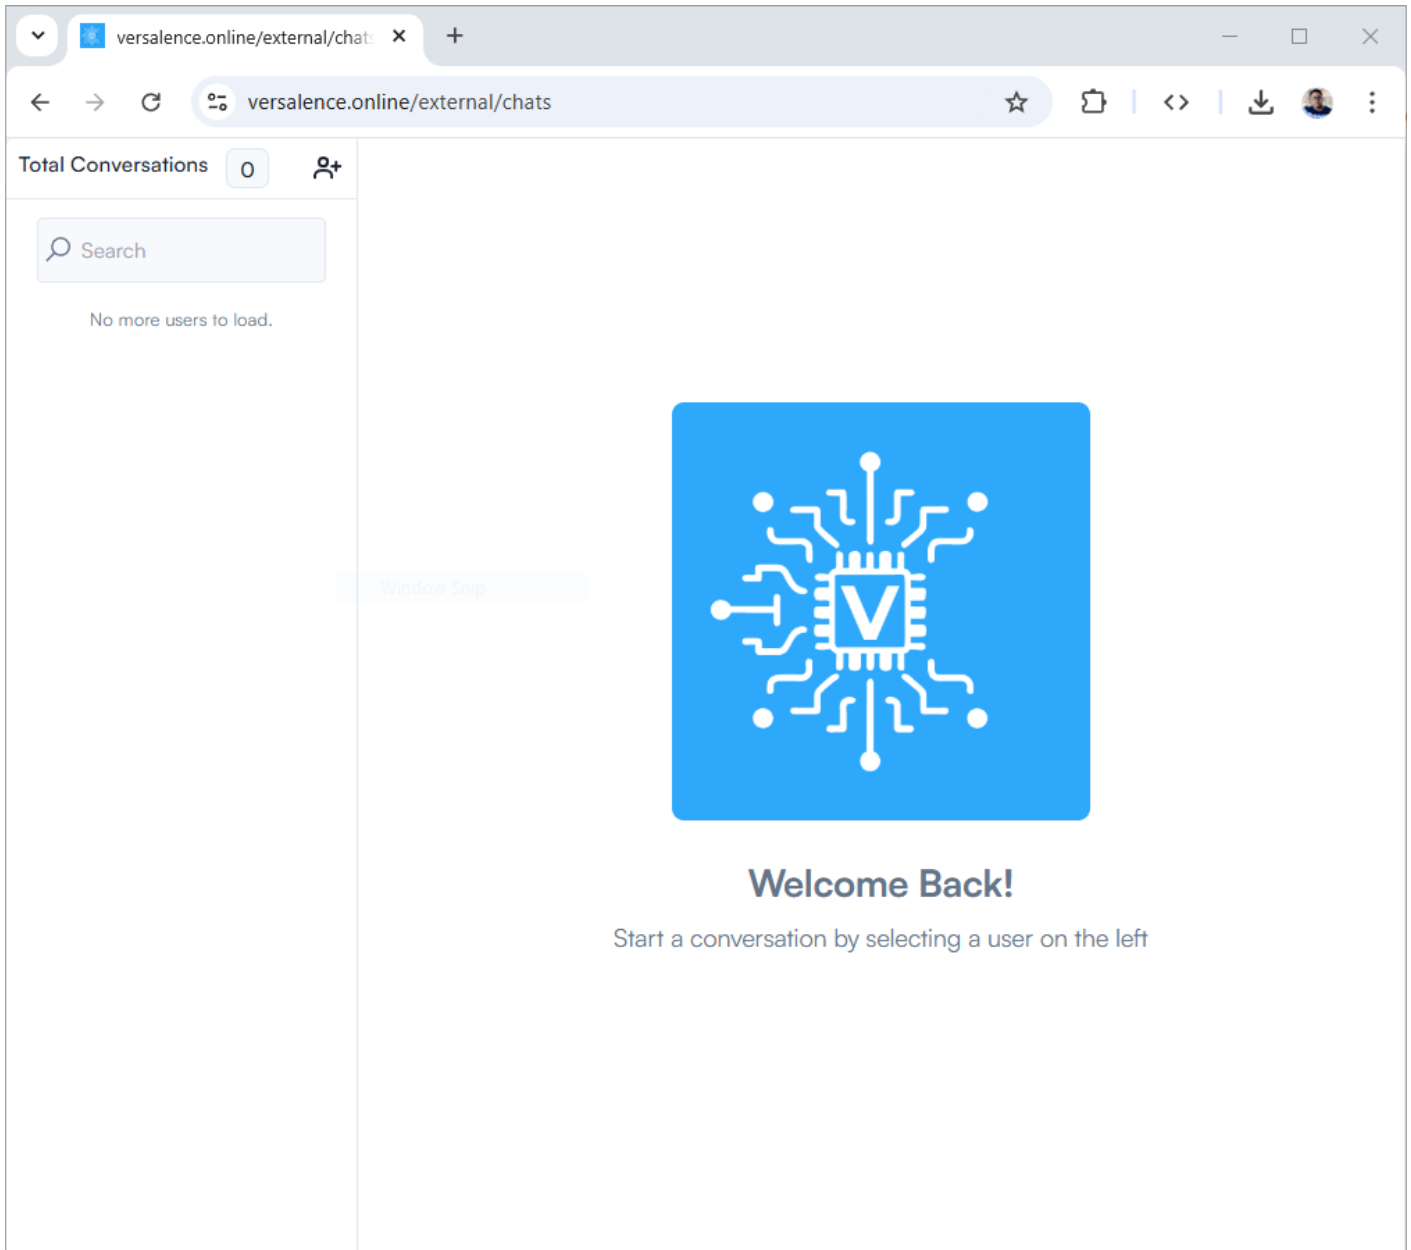

You will two information from here

1. the email address of your clients first admin login, it is available on the Admin Panel under column "Email"
2. Your clients accounts uuid - to attaining this from the Admin Panel, logging into you clients account using ->] icon under "action". Once you have been successfully logged into your clients account, under Settings - My Company - UUID

Once you have both inputs here is how your form the chat inbox plugin URL

<https://versalence.online/external/chats?uuid=<UUID of your client>&email=<First Admin Email>>

This feature only works for accounts where you are the agency

Happy Integration
