

Send Template Messages

While sending a template message, the template contents are not sent. To send a template message, its media link [public link] & variable values [if any] are sent along with the template name and language

Broadcast with caution - Do not spam. Spamming will lead to the degradation of service and WhatsApp number getting blocked

Sending Message

The template has no parameter

```
curl --location 'https://api.versal.one/<client-id>' \
--header 'Authorization: Bearer <client-token>' \
--header 'Content-Type: application/json' \
--data '{
  "purpose": "sendtemplate",
  "to": <recepient phone number>,
  "template": <template name>,
  "code": <language code>
}'
```

sample data

```
--data '{
  "purpose": "sendtemplate",
  "to": "919999900000",
  "template": "conv_start_hi",
  "code": "en_US"
}'
```

The template has image media

The image typically does not look like a regular parameter while creating the template. However, is a parameter

```

curl --location 'https://api.versal.one/<client-id>' \
--header 'Authorization: Bearer <client-token>' \
--header 'Content-Type: application/json' \
--data '{
  "purpose": "sendtemplate",
  "to": <recepient>,
  "template": "schedule",
  "code": "en",
  "components": [
    {
      "type": "header",
      "parameters": [
        {
          "type": "image",
          "image": {
            "link": "https://cdn.anuhealthyfood.in/images/missyourorders.png"
          }
        }
      ]
    }
  ]
}'

```

The link has to be publically accessible, or else the template won't be delivered to the user

The template has body parameters

```

curl --location 'https://api.versal.one/<client-id>' \
--header 'Authorization: Bearer <client-token>' \
--header 'Content-Type: application/json' \
--data '{
  "purpose": "sendtemplate",
  "to": <recepient>,
  "template": "schedule",
  "code": "en",
  "components": [
    {
      "type": "body",
      "parameters": [

```

```
{
  "type": "TEXT",
  "text": "Hemant Suryavanshi"
},
{
  "type": "TEXT",
  "text": "Blue USB Microphone"
},
{
  "type": "TEXT",
  "text": "12/12/2024"
}
]
}
]
```

In the above example, the template has three body variables. As depicted, only parameters are passed and not the entire body

The template has body parameters and image media

```
curl --location 'https://api.versal.one/<client-id>' \
--header 'Authorization: Bearer <client-token>' \
--header 'Content-Type: application/json' \
--data '{
  "purpose": "sendtemplate",
  "to": <recepient>,
  "template": "schedule",
  "code": "en",
  "components": [
    {
      "type": "header",
      "parameters": [
        {
          "type": "image",
          "image": {
            "link": "https://cdn.anuhealthyfood.in/images/missyourorders.png"
          }
        }
      ]
    }
  ]
}
```

```

    }
  ]
},
{
  "type": "body",
  "parameters": [
    {
      "type": "TEXT",
      "text": "Hemant Suryavanshi"
    },
    {
      "type": "TEXT",
      "text": "Blue USB Microphone"
    },
    {
      "type": "TEXT",
      "text": "12/12/2024"
    }
  ]
}
]
}'

```

In the above example, there is an image and three body parameters in the template

Response

```

{
  "message": "Message sent successfully",
  "response_text":
  "{ \"messaging_product\": \"whatsapp\", \"contacts\": [ { \"input\": \"+16312924377\", \"wa_id\": \"16312924377\" } ], \"messages\": [ { \"id\": \"wamid.HBgLMTYzMTI5MjQzNzcVAgARGBIxNEExODY3MjhGMDNGNDRBNjgA\", \"message_status\": \"accepted\" } ] }\",
  \"status\": \"200\"
}

```
